In connection with 2R 17/4/11
the supply of electricity
in the C & M. Station, the Elec-
trical Department of Mysore
will come under the operation
of this Act to a large extent.
There was an Act of 1903 before
this. I do not know whether
this had been introduced
there or not. Anyhow the
terms of working &c in relation
to this department should have
been settled in some manner
before the supply of energy was
taken there. Without knowing
all the details, it is impossible
for me to say whether the
Electrical Engr's opinion

Seen that the Govt agreed to supply Electric Energy to the C&M St^rs under the provisions of the Indian Electricity Act of 1903 and asked for a license under that Act. The license was granted accordingly specifying the conditions under which the licensee is to conduct operations connected with the Supply.

The question whether the Mysore Govt in undertaking to supply Electricity to private persons in the C&M St^rs would not place itself in the position of an ordinary Contractor and thereby expose itself to annoyance worry and possible litigation with private persons was not lost sight of and the final agreement with the Res^y was entered into after due consideration of this question. It will be noticed that the Residency was of opinion that private persons in the C&M St^rs could not sue the Chief Electrical Engr (the "licensee") as he would not be amenable to the jurisdiction of Courts in the C&M St^rs but as the Municipality of the C&M St^rs is concerned there is no difficulty

21 The Chief Electrical Engineer has been carrying the work of lighting &c in the Civil and Military Station as a licensee under the Act of 1903. He is evidently satisfied with the irksome obligations and heavy penalties a licensee is subject to under the Act of 1910 which are very similar to those under the old Act of 1903. In this matter which is highly technical, I am unable to offer any suggestions.
